Cursory report — not a certified title opinion. Interests are subject to the 25-item Curative Requirements schedule below. Figures are read directly from the examiner's canonical turn-in workbook; no legal facts are fabricated, and undetermined balances are disclosed as open rather than distributed.

Basis / version note. This report is built on the canonical *BEST TURN IN COPY*, which supersedes the earlier "NHE Final." Per curative items **C-02** and **C-03**, the prior version over-credited Tract 9 (Dold 80.00 → corrected 18.835 NMA) and carried an unsupported Tract 2 row (removed). Identified NMA is therefore lower and more defensible here.

1. Executive summary

637.42 GROSS ACRES · 10 TRACTS	301.57 NMA IDENTIFIED OF RECORD	335.85 NMA OPEN / UNDETERMINED (CURATIVE)	69 LEASES OF RECORD (OGL 1– 69)
---	--	---	---

Section 31 is a leased Cherokee section developed in the 2004–2006 EOG / Arrowhead play (base register OGL 1–63). In 2026 **Silver Oak Natural Resources, LLC** recorded a six-lease **top-lease sweep** (OGL 64–69, 3/16 royalty) over the principal current owners. Fee mineral ownership is a family mosaic — **Mitchell / Williams / Moore, Bain / Jensen / Fuchs, Kirk, and Daigle / Sorenson / Johnson** — with modern mineral-fund buyers layered on.

Tracts 1, 3, 6, 8 and 10 are cursory-balanced; Tracts 2, 4, 5, 7 and 9 carry disclosed undetermined balances pending curative.

Material HBP risk (Curative C-10). Base leases (OGL 1–63) are carried HBP per well data of record, *but the client reports the Alexander 1-31 may be inactive* and OCC/OTC production has not been independently confirmed. **If the well is not producing, the base leases may have expired and the Silver Oak top leases (OGL 64–69) may be operative** — this materially changes who holds the leasehold. Confirm production before relying on any HBP conclusion.

					workbooks, county index PDF, and QA script were not available in this session.	24W 31 Index PDF; title_qa_pass script	

Basis: the examiner's canonical *BEST TURN IN COPY* workbook (7/3/2026) — Turn_In_Summary, Title, OGL register, WI chains, Well 1, and the Curative_Requirements schedule — plus the Roger Mills County unplatted legal index (OCR through 05/05/2026). Current ownership reflects identified record owners; undetermined balances are shown as explicit open lines, not distributed. All ten tracts foot to the section total of 637.42 acres.

Cursory cleanup only from available workbook, county index (OCR), OCC status, and OTC evidence. Not a certified title opinion. Open and verify items remain only where source evidence was insufficient.

Index-OCR Lead Memo — Sec 31-12N-24W, Roger Mills Co., OK

Source: OCR (tesseract) of the 88-page scanned county legal index 12N 24W 31 - Index.pdf. **Status:** LEADS ONLY. OCR of a scanned index confirms an instrument *exists* and its grantor → grantee, type, and book — it does **not** establish the conveyed fraction (that needs the instrument image) and is subject to OCR error. Nothing here is certified or added to the ownership report's net-acre figures. The files10.zip image set (14.9 MB) exceeded the Drive download limit, so instrument images were not pulled in this session.

1. Pre-2000 root grantors — confirmed absent from the 2000-forward index

Rowley, Ridling, Shotwell, Burckhalter returned **0 hits** — consistent with the punch list: their vesting instruments predate the online index (which starts 02/08/2000) and must be pulled from older county books. Thurman (12), Devenas (8), Fasken (4), Hambrook (3), Standiford (2) do appear in later index activity.

2. Ella Pearl Kirk estate (Curative C-08) — still OPEN

The index shows Kirk instruments but **no probate or heirship** for Ella Pearl Kirk: - KIRK, ELLA PEARL → HARRIS JESS III INC — O&G Lease, Bk 1833 (this is OGL 62 / Bk 1833/0218, Tract 8). - KIRK, ELLA PEARL → KIRK, CALVIN WAYNE — Mineral Deed, Bk 2365 (the 2017-000951 deed; Calvin's carried 2.2 ac). - KIRK, CLINT ROY → J AND A MINERALS, LLC — Mineral Deed, Bk 2682 (Tract 7 chain). - ATHA FLOYD W CO-TRUSTEES et al → KIRK, FREEDA — **Judgment, Bk 1952** (lead — a court action touching a Kirk; review for succession relevance). - KIRK, MARGARET → ... — O&G leases, Bk 1604 / Bk 1816 (OGL 48 chain). **Conclusion:** C-08 confirmed open; Ella Pearl Kirk's 48.80 NMA succession is not resolvable from the index — pull probate/heirship (and review the Bk 1952 judgment) from county/court records.

3. Conveyed-fraction instruments (Curative "read fraction from image") — parties/book confirmed by OCR

Each row below is an index-confirmed lead; pull the instrument image at the cited book to read the fraction.

2015-003023	Hetherington, Bryon A et al → Hetherington, Bryon A TTEE et al	MD	2074	2

(OCR artifacts: "Kodiak" often OCR'd as "KOALA"; book numbers shown are the 4-digit book prefix.)

4. What this changes in the report

Nothing in the net-acre figures. These are leads that (a) validate the pre-2000-root gap, (b) confirm C-08 stays open, and (c) give the examiner an exact pull list (grantor/grantee/type/book) for the conveyed-fraction instruments. Certification still requires the instrument images and the OCC/OTC/probate pulls listed in the Curative Requirements schedule.
