

Section 32-11N-25W — Boss Review

Beckham County, Oklahoma • Diversified focus • Effective August 6, 2026

Cursory report — not a title opinion

Bottom line

Diversified Production LLC is the latest supported named claimant for asset OK48147.001.1 through Book 2400, Pages 551-567 (asset line at Page 566). The evidence supports a material Section 32 leasehold branch but does not support an exact current WI, NRI, ORRI, net leasehold acreage, or mineral ownership decimal.

Mineral ownership

The Title tab carries estimated last-located owners across seven fee tracts totaling 640 nominal acres. Arithmetic closure is not current-title proof. No tract is documentarily closed; owner status and addresses remain qualified where later records were not located.

Diversified transaction branch

Item	Cursory conclusion
51.25%	Transaction branch figure only; not reported as current Section 32 WI
48.75%	OCM Denali parallel branch; kept separate from Diversified
15.000875%	Arithmetic product only; not WI/NRI/ORRI/NMA
Current exact WI/NRI	Not calculable from available exhibits and schedules

Wells and leases

Latigo is carried as operator for the three Carlson horizontal wells; BCE-Mach II is carried for its separate Section 32 wells. Diversified is not shown as well operator. Well activity is regulatory context only and is not treated as lease-specific HBP proof.

Priority unresolved items

Complete 1697/236 Exhibit A; 2340/403 and 2340/490 schedules; 2371/470-533; 2395/415-464; 2400/551-567; the 1016 assignment series; Crook probate 845/150-157; the SE/4 Biggs patent; and lease-specific production/savings-clause evidence.

Suitability

Suitable for qualified cursory client review and source-pull planning. It must not be represented as a drilling, acquisition, division-order, marketable-title, or full title opinion.

Net mineral acres, ownership, lease status, and working-interest calculations shown in this cursory report are estimates based on the instruments and extracted records reviewed. They are subject to verification by complete examination of the county, probate, regulatory, and other applicable records.
