Sec 32 T12N R24W	Echo Energy LLC	royalty		1/8	0.06250000	ok
Sec 32 T12N R24W	TOTAL		1.00000000		1.00000000	

Defects & curative worklist

Severity	Category	Subject	Detail	Curative Action
yellow	examiner-review	2020-0003	Chain break: OGL instrument never referenced in the runsheet; Grantor conveyed 1/2 but only held 1/4 (over-conveyance of 1/4).	Over-conveyance: the grantor purported to convey more than the record shows they held. Confirm the grantor's actual interest and whether a prior conveyance or reservation is missing from the chain before relying on any downstream interest.
yellow	chain-break	20200003	unreferenced_ogl	Locate the instrument (or its recording data) that links this document across the OGL register and the runsheet. If none exists, document the gap and obtain the missing conveyance.
yellow	chain-break	20999999	orphan_note	Locate the instrument (or its recording data) that links this document across the OGL register and the runsheet. If none exists, document the gap and obtain the missing conveyance.
red	ownership-8/8	Sec 31 T12N R24W	Mineral interests sum to 7/8 (0.875000), not 8/8 -- under by 1/8. Do not release until reconciled.	Reconcile the mineral estate to a full 8/8: find the instrument(s) that convey the missing or excess undivided interest, or confirm and record an outstanding unleased interest.
